

SCOTT TRIM NOZZLES

The ultimate jet boat accessory

Features

- Unique Patented Scott trim nozzle system
- Fully adjustable – Up/Down (Trim) plus Left/Right (Steering)
- Up trim - more acceleration, more top end, wicked rooster tail
- Down trim - lower planing speed, better handling, more load lifting, great hole shot
- Changeable nozzle rings for precise tuning - 3 screws, change in seconds
- Fingertip trim and steering control
- Better fuel economy
- Unique design stops porpoising
- Comes with complete installation kit

Available for;

- 770 Hamilton / Kodiak
- 212 Hamilton
- Mercury Sport Jet
- American Turbine
- Replacement standard steering nozzles available for 770 / Kodiak and 212

Construction Specification

- H25 cast aluminium body
- Stainless steel spherical bearings
- CNC machined
- Pivots are lock wired
